UNITED STATES GOVERNMENT

Memorandum

OCE-M78- 122

DATE: 30 MAR 1978

TO : Chief, Real Estate & Construction
Division, OL

FROM : [REDACTED]
Chief, Communications Engineering

25X1A

SUBJECT: Installation of First SC-3 Satellite Terminal at [REDACTED]
[REDACTED] (C)

REF: OCE-M76-473, dated 1 November 1976

1. (C) As a result of discussions between members of our staffs on the possibility of using a 2.5 meter antenna reflector with small satellite field terminals, PDSC-31, the specification for a new, small, field terminal incorporated such an antenna size. Your input and comments on this specification, transmitted by the reference, and your response to subsequent evaluations and reviews have been appreciated.

2. (C) The first terminal, available for installation in July 1978, will be subjected to intensive testing prior to giving approval for production of the remaining terminals. This approval is required contractually within four months following completion of the in-plant acceptance testing. The [REDACTED] has been chosen to receive this terminal, and your support is needed to help plan and supervise the construction details for this installation in the limited time available.

3. (C) Please advise the name of a point of contact for this installation so that necessary action can be undertaken soonest. For additional information, please contact [REDACTED] of my staff on [REDACTED]
